APPENDIX C

13(a)--
see source code under heading 9(c) in Appendix B

13(b)--
see source code under heading 9(c) in Appendix B
(this would be another instance of the same code)

13(c)--
notes: In the JMSContact class, the AcceptReport method is the
implementation of the contact part in communication with multiple providers
that call this method to report status. [relevant to Claim 13]

source code excerpt:

```
def AcceptReport(self, provid, asmtid, finished, report):
    self.jobmanager.AssignmentUpdate(asmtid, report, finished)
    return pcontact.ReportResponse.Accepted
```

also see source code under heading 1(a) in Appendix B (for "assigning part")
